- ❯ Easy to clean
- ❯ Built-in aroma diffuser for essential oils
- ❯ 6-Liter water tank with ceramic filter
- ❯ Suitable for babies and children
- ❯ Versatile: both cool and warm mist

SKINCARE

Whether it is winter, or too much AC during the dry summer months, it is particularly effective for treating dryness of the skin, nose, and lips. Can also prevent accelerated aging due to dryness.

QUALITY OF SLEEP

Good sleep is easily disrupted when the air is dry. If you have ever waken up coughing, Lux's Humidifier can relieve dry throat, prevent snoring and sleep apnoea.

PLANTS AND FURNITURES

Keep not only your skin, but your plants hydrated too. Having a humidifier will help the wood furniture last longer and your plants grow and thrive like an exuberant jungle.

HEALTH EFFECTS

Optimal humidity level is between 40-60%! Viruses and bacteria travel harder in humid air. Usual symptoms of a cold, or sneezing will be reduced faster as it lowers the chance of getting infected through air by avoiding dry mucous membrane.

IONIZER

It minimizes bacteria growths in your environment. This feature is a must and should be turned on at all times! Many commercial humidifier serves as a hotbed for bacteria by creating optimal environment for them to grow. Our ionizer technology prevents this process before it could start.
